OSSOS

WATCH THE INSTITUTIONAL VIDEO OF NACIONAL OSSOS

A pioneer in Latin America, Nacional Ossos produces **synthetic materials for studies**, demonstrations and improvement of medical techniques.

It is currently present in more than 50 countries, providing high technology and innovation in the areas of Dentistry, Orthopedics and Veterinary.

In the market since 1995, Nacional Ossos has more than 800 types of products manufactured in polyurethane and acrylic with radiopaque option.

Human capital is **our main differential**. The definition, almost handcrafted, in all the pieces raises the quality and delivery criteria so you can receive the most advanced production of artificial bones for study and training.

All this technology and innovation contribute to a unique experience of improving professional practice in a humane way and using clean energy.

The future is now, come to a Nacional Ossos.

**Nacional Ossos,
products serving life.**

summary

- 0 5 launches
- 0 8 facial maxillary skull (fms)
- 1 4 trauma upper limb
- 2 2 trauma lower limb
- 3 8 spine
- 4 4 arthroscopy
- 4 6 demonstratives
- 5 0 ligaments
- 5 2 accessories
- 5 4 block for biomechanical tests
- 6 2 contact
